

# CONTOUR / Front sizing study

True-scale display outline; trial controls and shell. No game UI or viewing aperture implied.

PAPER TRIAL 01 / All dimensions mm / Not a fabrication drawing

Filled blue = documented module outline. Other geometry = deliberate paper-test assumptions.

NAV 30 diameter footprint; other caps 18. Mechanisms, travel, grip and reach are unverified.

Four workspace keys are W1-W4 placeholders; no new destinations or control functions.

100 mm check bar - print Actual size / 100%, never Fit

# CONTOUR / Rear service reservations

Looking from the rear: X is mirrored. These are projections, not usable same-plane packing.

PAPER TRIAL 01 / All dimensions mm / Not a fabrication drawing

240 x 160 dashed region is an allocation boundary, NOT a free PCB area or proven clearance.

Open passive lid > reach/disconnect harnesses > remove support > access front retainers.

Board, energy, antenna, thermal, fastener and cable envelopes remain unallocated.

100 mm check bar - print Actual size / 100%, never Fit
